Transfers of County Funds.

Resolution No. 13 of the board of

supervisors, dated March 7th, 1907,

transferring the sum of \$5,000 from

general funds to road funds, was

found to be in order. The transfer,

however, was not entered in the treas-

urer's cash book.

In the treasurer's general fund cash

book, under date of July 29, 1910, ap-

pears the credit entry: "Transfer to

roads, \$38,180."

In the same cash book, under date

of September 30th, 1910, another

credit entry was made, which read

"Transfer to roads, \$12,000; total \$50,

180.00."

The county treasurer's check, No.

641, referring to the above transac-

tions, was drawn in favor of the

First Bank of Hilo, Limited, for the

full amount, namely: \$50,180 on Sep-

tember 20th, 1910. The bank account

of the general fund of the county of

Hawaii was balanced on August 3rd,

1910; September 3rd, 1910; and Oc-

tober 4th, 1910. The transfer of \$38,

180 in the treasurer's cash book of

July 29th, 1910, was not considered by

the bank in their above-mentioned bal-

ances, as the treasurer's check to the

bank for \$50,180, which included the

\$38,180, as above, was not drawn un-

til September 26th, 1910. It would

have been impossible, therefore, for

the county treasurer to reconcile his

book balances with the bank's balanc-

es on either August 3rd, 1910, or Sep-

tember 3rd, 1910. The above transac-

tions were not merely book-keeping en-

tries, as two separate accounts, general

fund and road fund, were then kept

by both the bank and the county

treasurer.

## UTILITIES COMMISSION SOON TO DRAFT REPORT OF INTER-ISLAND PROBE

It was announced at the meeting of the public utilities commission this afternoon that no further hearing in the commission's investigation of the Inter-Island Steam Navigation Company will be held until a report has been drafted containing the testimony given by James A. Kennedy, president and manager of the company, at former hearings. The next hearing, the date of which is to be announced later, probably will bring an end to the investigation. The complete transcript will then be submitted to the governor for his perusal.

The commission may take up with the attorney-general the complaint against the Koolau Railroad Company preferred by Manuel Sylvester, a farmer at Hauula. Sylvester claims an overcharge in the rates for hauling cane over the company's lines. Commissioner A. J. Gignoux was of the opinion that the complaint was a matter which should be handled by the interstate commerce commission.

## CASES HANDLED IN RAPID MANNER IN THE FEDERAL COURT

In the federal court all cases were speedily either continued or disposed of in short order this morning so that the Sylvester trial might come up before Judge Clemens.

James F. Field, who pleaded guilty and who was represented by Attorney Straus, was remanded to May 13. Libby Kalaue and Ah Chow met with a similar fate. S. F. Chillingworth, who was appearing for the pair, withdrew, and W. T. Rawlins undertook the defense.

R. E. Craig, et al, who were charged with being present at a gambling game, were defended by Attorneys Straus and O'Brien. One defendant pleaded guilty and was fined \$10 by Judge Clemens. It is understood that another defendant will also plead guilty when called upon.

The Doyle and Schurmann cases went over till tomorrow morning to be set for trial.

Captain O. J. Whitehead of Wailuku, Maui, who was called as a juror, was excused from further attendance on account of pressure of business that cannot be handled by his assistants during his absence in Honolulu.

Tomorrow there are several matters to come up before the federal court, but the probabilities are that the Sylvester case will take up the whole day, and that the other cases will have to be sent over to a future date.

During the last two weeks of the month of April there were twelve deaths in the city of Honolulu from contagious diseases. Two persons died from diphtheria, two from typhoid fever and eight from tuberculosis.

The county treasurer's check, No. 641, referring to the above transac-

tions, was drawn in favor of the

First Bank of Hilo, Limited, for the

full amount, namely: \$50,180 on Sep-

tember 20th, 1910. The bank account

of the general fund of the county of

Hawaii was balanced on August 3rd,

1910; September 3rd, 1910; and Oc-

tober 4th, 1910. The transfer of \$38,

180 in the treasurer's cash book of

July 29th, 1910, was not considered by

the bank in their above-mentioned bal-

ances, as the treasurer's check to the

bank for \$50,180, which included the

\$38,180, as above, was not drawn un-

til September 26th, 1910. It would

have been impossible, therefore, for

the county treasurer to reconcile his

book balances with the bank's balanc-

es on either August 3rd, 1910, or Sep-

tember 3rd, 1910. The above transac-

tions were not merely book-keeping en-

tries, as two separate accounts, general

fund and road fund, were then kept

by both the bank and the county

treasurer.

Financial Reports of County Auditor

to Board of Supervisors.

The financial reports of the auditor

of the county of Hawaii were regu-

larly submitted to the board of super-

visors at their meetings, together

with the reports of the other depar-

ts of departments. These reports were

accepted, as a matter of form, as the

following minute of the meeting of the

board, held on March 1, 1911, will

show:

"Report of C. K. Maguire, auditor,

county of Hawaii, on the financial

condition of the county was read, ac-

cepted and placed on file."

On the 1st of March, 1911, the short-

age in the funds of the county of Ha-

wai, due directly to the fraudulent

practices of the county auditor,

amounted to the approximate sum of

\$87,000.00. At the time of the submitt-

ing of the report, on the financial

condition of the county of Hawaii,

as above, there had never been a re-

conciliation made between the books

of the county treasurer and the county

auditor since the commencement of

county government on July 1, 1905,

and the treasurer's cash balances had

never been checked in conjunction

with the outstanding warrants, which

were known only to the county au-

ditor.

As the county auditor alone knew of

the amount of outstanding warrants,

and as no audit had been made of any

of his accounts by the territorial au-

ditor, since the commencement of

county government on July 1, 1905,

this periodical counting of the moneys

in the public treasury of the county

of Hawaii, to check against the bal-

ances of either the county auditor or

the county treasurer, resolved itself

into a pure farce. This has been

amply demonstrated by the revela-

tions which have been made by the

present detailed audit.

Victims of the hatred as well as cruelty of the Mexican rebel leaders and an increasing antagonistic sentiment upon the part of the people in the northern portion of the troubled republic, a large number of Chinese, many of whom possessed large holdings in agricultural and mineral districts, are passengers in the Pacific Mail liner Manchuria, enroute to the coast of Asia, there to remain until peace and order have again been restored, and protection to life and property can be guaranteed to resident and stranger.

Among more than 1000 Chinese who today passed through Honolulu, are those who had amassed a considerable competence in the capacity of merchants and agriculturists. They report meeting with untold hardships in attempting to gain the west coast, where passage was granted the refugees and a safer haven was reached with their arrival at San Francisco. The Manchuria's arrival at Pier 7 this morning brought out a large delegation of spectators. Reporting fine weather from the time of departure from San Francisco, Captain Andrew Dixon, stated that the list of passengers comprised many people prominent in the social and business life of the Far East.

The Manchuria will remain at Honolulu until 6 o'clock before resuming the voyage to Japanese ports and the China coast. The vessel is scheduled to call at Manila, the capital of the Philippines.

The Manchuria landed 44 cabin and three second class passengers, while proceeding through to the Orient are 78 cabin, 25 second class and 187 Asiatic steerage passengers.

The vessel will be discharged of a small amount of general cargo and to take on a quantity of sugar mill machinery destined for a new mill recently installed at a southern Philippine plantation.

A novel feature of the outward voyage was the presence on board the liner of a trio of dancing experts. Before the Manchuria had left the Farallones, far behind, it is said that everybody had become addicted to the infectious epidemic of "tangoitis."
